

Stump Grinder Teeth

How to Determine What You Need

Check your Pockets

Pockets have a number on them that correlates to the series tooth that it fits.

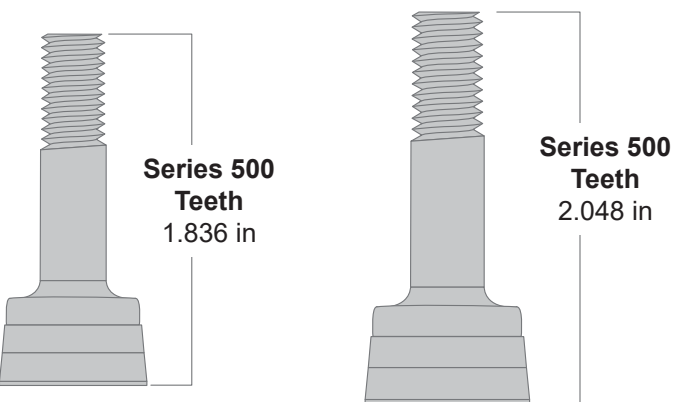

Series Teeth	Number on Pocket
Series 500 teeth	5
Series 700 teeth	7
Series 900 teeth	9
Series 1100 teeth	11

Check your Tooth Height

Each new series stump tooth is a specific height. Wear and tear from use may affect this measurement.

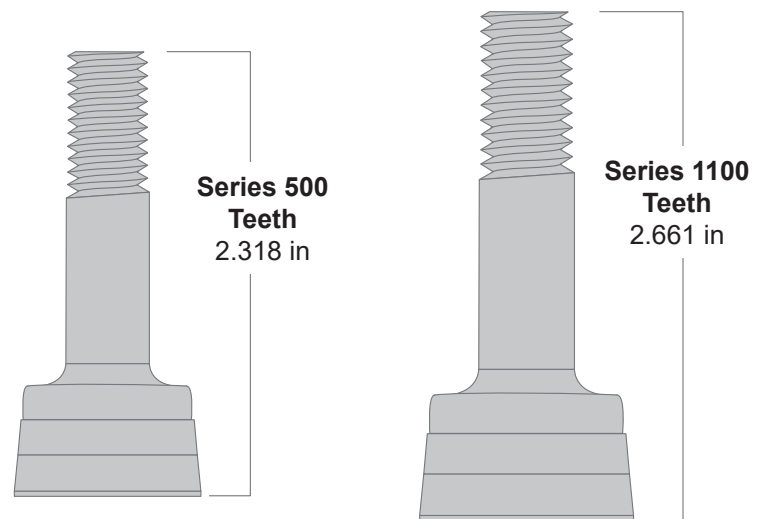

Series Teeth	Tooth Height
Series 500 teeth	1.836 inches
Series 700 teeth	2.048 inches
Series 900 teeth	2.318 inches
Series 1100 teeth	2.661 inches

Check your Wrench

You will need a different size wrench to remove the nut for each series stump tooth.

Series Teeth	Wrench Size
Series 500 teeth	1/2-inch
Series 700 teeth	9/16-inch
Series 900 teeth	5/8-inch
Series 1100 teeth	3/4-inch

Check your Horsepower

The horsepower of your machine typically corresponds to the series teeth that you are running.

Series Teeth	Horsepower
Series 500 teeth	Up to 20
Series 700 teeth	From 20 to 45
Series 900 teeth	From 45 to 85
Series 1100 teeth	85 or more
