Packaging knives require close tolerances and American Cutting Edge has the expertise to deal with special requirements that are not visible to the naked eye. We carry stock items on popular brands and manufacture American Cutting Edge brand OEM compatible blades and knives for all packaging machines.

With our knowledge of special materials and coatings, we can often design a knife that will improve your production. ACE offers a comprehensive range of precision ground blades, made from high-quality hardened and tempered stainless and carbon steels. All packaging knives are made to the most exacting OEM standards. This enables our customers to obtain the best possible results for their cutting requirements and lower their overall production costs.
